Jl. Scientia Square Barat Nomor 11, Curug Sangereng, Kecamatan Kelapa Dua, Kabupaten Tangerang, Banten 15334

I am a 21-year-old Computer Science student at Multimedia Nusantara University with a strong passion for game development. My primary focus is Unity development, where I have experience creating FPS and VR Games. I enjoy turning ideas into interactive experiences and continuously expanding my technical knowledge by learning new tools, technologies, and development practices.
I am eager to contribute my technical skills, collaborate with experienced professionals, and continue growing as a Game Developer and Software Developer.

Education Level

Saint Bernard High School  - Jl. Patriot No.14, Dukuh, Kec. Pekalongan Utara, Kota Pekalongan, Jawa Tengah 51146	Jul 2020 - Jul 2023
<i>High School Diploma, 81.00/100.00</i>	
- E-Sports Member - Literation Group Member	
Universitas Multimedia Nusantara - Jalan Scientia Boulevard Gading, Curug Sangereng, Serpong, Kabupaten Tangerang, Banten 15810	Aug 2023 - Aug 2027 (Expected)
<i>Bachelor of Computer Science, 3.10/4.00</i>	

Organisational Experience

UMN Festival 2024 - Universitas Multimedia Nusantara	Feb 2024 - Feb 2025
<i>Security Staff</i>	
- Collaborated with 20 security staff to maintain venue safety during UMN Festival's Unveiling Event, contributing to zero major security incidents. - Managed crowd control and enforced safety protocols for 550+ attendees, contributing to a safe and well-organized event. - Recognized as Best Security Team Member among 60 security members for outstanding reliability and performance under pressure.	
UMN Game Development Club (GDC) 2023 - Universitas Multimedia Nusantara	Aug 2023 - Aug 2024
<i>Coder</i>	
- Collaborated with 4 artists and audio designers to integrate visual assets, dialogue, and sound into a fully playable visual novel. - Implemented core gameplay systems, including branching choices, interactive gameplay mechanics, and mini games using Python and Ren'Py. - Delivered a fully playable visual novel after 4 months of development through collaboration within a 6 member multidisciplinary team.	

Skills, Achievements & Other Experience

- Unity Game Development** (2025): Developed UNPERSON as Gameplay Programmer and Team Leader in a 5 member team, implementing 12 gameplay systems, 3 weapon mechanics, AI behaviors, and 2 playable levels before successfully registering the project for Indonesian Copyright (HAKI) and published it on the university's itch.io page.
- Unity VR Development** (2026): Developed immersive VR experiences in Unity using XR Interaction Toolkit, implementing 6+ interaction systems including grabbing, snap interactions, continuous turning, object interaction, VR UI, and VR shooting mechanics.
- Ren'py Game Development** (2023): Developed a visual novel over 4 months in a 6 member multidisciplinary team using Ren'Py, implementing dialogue systems, scene transitions, and interactive mini games.
- Android Application Development** (2025): Developed Android applications using Kotlin and Android Studio, implementing Fragments, RecyclerView, user authentication, responsive UI, and Machine Learning based game genre prediction.
- Soft Skills**: Analytical problem-solving, effective team collaboration, creative thinking, strong attention to detail, and adaptability in dynamic environments.
- UI/UX Design**: Proficient in designing interactive, user-friendly interfaces using Figma and Unity UI Toolkit
- HCIA-openGauss V1.0 Course**  (2025): Achieved 100% completion and scored 860/1000 across 11 hours of database training focused on SQL optimization and open-source database deployment.
- HCIA-AI V3.5 Course**  (2025): Achieved 100% completion and scored 910/1000 across 13.7 hours of applied learning in Machine Learning, Deep Learning, and AI development.
- Language**: Indonesian (Native), English (Fluent), Javanese (Native)
